Letter of Reference

To whom it may concern,

We had the pleasure of knowing Mark Wiltshire and members of his company Mark Wiltshire Golf Design professionally and personally for several years.

My husband and I worked with Mr. Wiltshire and his team on the Laucala Island Golf course project in Fiji. The island is privately owned by Dietrich Mateschitz, founder of Red Bull.

During the time of over three years working with Wiltshire Golf design, they brought the attention to detail and the luxury level of the 19hole Golf course and the guest service quality up to our desired Laucala Island standard. As my husband and I always say "you can have a great hardware, but you also need a very good software" in any operation within the hospitality. Through the great and professional support of Mark and his team we accomplished exactly that service level our international guests were seeking for.

We can honestly say that it was a great pleasure to have worked with the Wiltshire team and we can highly recommend them for any exciting project looking for high quality standards. With no doubt we would work with them again if given the chance in the Golf world in the future.

If you have further questions I am happy to be a reference at any time.

with kind regards,

Maja & Thomas Kilgore
